

IMPROVE YOUR DEFENSES:

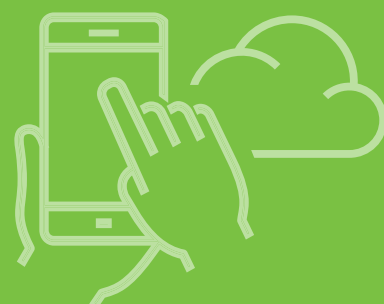

How to Enhance your Physical Security Infrastructure Series

OUR TAKE: Actual Practices VS Best Practices

FROM THIS

TO THIS

LOCKS, KEYS, STANDARD CARDS AND FOBS

- ✗ Rekeying is Expensive and Inconvenient
- ✗ Limited or Challenging Scalability
- ✗ Inherent Security Risks

CLOUD-BASED ACCESS CONTROL AND VIDEO SURVEILLANCE

- ✓ Easy Installation and Operation
- ✓ Unlimited Scalability
- ✓ Leading Security

STANDARD CARDS AND FOBS

- ✗ Easy to Duplicate, Lose, and Share
- ✗ No Remote Access

MOBILE AND SECURE CREDENTIALS

- ✓ No Need for Access Cards
- ✓ Improved Security
- ✓ Dual authentication (phone access code, application code)
- ✓ Difficult to duplicate and hack

NO REGULAR ACCESS PRIVILEGES BACKUP

- ✗ Risk of Unauthorized Access

AUTOMATIC BACKUPS

- ✓ Always up to date
- ✓ No Risk of Unauthorized Access from Lost/Stolen IDs (if reported)

NO REGULAR FIRMWARE UPDATES

- ✗ Outdated Software
- ✗ Hidden Security Vulnerabilities

AUTOMATED FIRMWARE UPDATES

- ✓ Always Up-to-Date Software
- ✓ No Update Scheduling Required
- ✓ New Vulnerabilities are Patched as soon as they are Discovered

HOW CAN BRIVO HELP YOUR ORGANIZATION

Affordable

- No servers or software to buy or maintain.
- Hidden costs free in subsequent years of operation.

Adaptable & reliable

- Our API integration allows you to customize your capabilities to fit your needs.
- Backed by years of experience and industry leadership.

Scalable

- No limit on how many facilities or doors you can add.
- Add video and mobile credentials anytime.
- No limit to the number of tenants, vendors, or contractors to whom you grant access.

Convenient to install, administer & manage

- Rapid and simple installation.
- Control sites in multiple Brivo OnAir® accounts with the same application.
